### **DETAILED ACTION**

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2 November 2006 has been entered. An action on the merits of claims 1-2, 8-9, 11-14 and 21 follows below.

#### ***Allowable Subject Matter***

Claims 1-2, 8-9, 11-14 and 21 allowed.

The following is an examiner's statement of reasons for allowance: the primary reason for the allowance of the claims in this case is the inclusion of a container for transporting a propane tank, where the container contains a plurality of side flaps pivotally connected to the container, where in an open position the side flaps are parallel with the container and in a closed position the flaps are pivoted to provide an opening for the top of the propane tank to extend through, in combination with the other elements recited, not found in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
